

| Paid Jobs | Farm Family Members | Wages  | Revenues |
|-----------|---------------------|--------|----------|
| 410       | 210                 | \$14 M | \$176 M  |

### Key State Results by Stage in the Value Chain

|  |                                                                       | Jobs | Wages   | Revenues * |
|--|-----------------------------------------------------------------------|------|---------|------------|
|  | <b>Soybean Production</b>                                             | 320  | \$11 M  | \$128 M    |
|  | <b>Soybean Delivery</b><br>to crushing facility<br>or point of export | 30   | \$0.9 M | \$3 M      |
|  | <b>Elevators</b>                                                      | 50   | \$1.7 M | \$4 M      |
|  | <b>Soy Biodiesel Production</b>                                       | 10   | \$0.5 M | \$1.3 M    |

\* Revenues represent the value *added* to soy at each stage. This avoids double-counting the value of preceding stages.

### Total National Results

The national soybean sector has a total impact on America's economy of almost \$116 billion – the equivalent of more than 0.65 percent of the U.S. GDP, and up to 9 percent of the GDP for certain states.

| Paid Jobs | Farm Family Members | Wages    | Revenues  |
|-----------|---------------------|----------|-----------|
| 280,000   | 78,000              | \$11.6 B | \$115.8 B |

- To perform this analysis, LMC estimated direct impacts and then applied multipliers from the U.S. Department of Commerce Bureau of Economic Analysis, which prepares them for 369 detailed industries.
- Jobs are presented on a *full-time equivalent* basis, so a seasonal worker is counted as part of a job.
- The state numbers do not add up to the totals, because several small impacts are not displayed.
