April 29, 2015

FULL HOUSE

Dear Rep:

The Waters Advocacy Coalition (WAC) urges you to support H.R. 1732, the Regulatory Integrity Protection Act of 2015. This legislation would require the U.S. Environmental Protection Agency (EPA) and the U.S. Army Corps of Engineers (Corps) to withdraw the flawed “waters of the U.S.” (WOTUS) rule and develop a new proposed rule after engaging in meaningful stakeholder consultation.

WAC is a broad coalition representing the nation’s construction, real estate, mining, agriculture, transportation, forestry, manufacturing, and energy sectors, as well as wildlife conservation and recreation interests. WAC is deeply concerned about the rulemaking jointly proposed by EPA and the Corps to redefine WOTUS under the Clean Water Act.

There is significant disagreement between the federal agencies, the states, local governments, and the regulated community about the scope and effect of the rulemaking. The introduction of H.R. 1732 follows months of respectful urging of EPA and the Corps to withdraw the proposed rule and work with these stakeholders to develop a proposal that respects the jurisdictional limitations imposed by Congress and affirmed by the U.S. Supreme Court.

It is important for Congress to set parameters for further agency action on a WOTUS rule so that the final result reflects congressional intent. By requiring EPA and the Corps to withdraw the proposed rule, H.R. 1732 appropriately initiates a process that will further protect our nation’s environmental assets, assure our ability to engage in robust economic activity, and earn broad support from state and local officials and the regulated community. We urge you to vote for passage of H.R. 1732, the Regulatory Integrity Protection Act of 2015, and to oppose any amendments that would weaken the legislation.

Sincerely,

Agricultural Retailers Association
American Exploration & Mining Association
American Farm Bureau Federation
American Forest & Paper Association
American Gas Association
