	78,000	280,000	\$11.6B	\$115.8B

The national soybean sector has a total impact on America's economy of almost \$116 billion — the equivalent of more than 0.65% of the U.S. GDP, and up to 9% of the GDP for certain states.

- To perform this analysis, LMC International estimated direct impacts and then applied multipliers from the U.S. Bureau of Economic Analysis, which prepares them for 369 detailed industries.
- Jobs are presented on a full-time equivalent basis, so a seasonal worker is counted as part of a job.
- The state numbers do not add up to the totals, because several small impacts are not displayed.
